One Health: Clinical and Environmental Research Integration 2027 (Open Conference)

Dates: 10-11 November 2026

Venue: Doi Suthep, Kantary Hills Hotel, Chiang Mai, Thailand

Hosts: Chidchamai Kewcharoenwong & Ganjana Lertmemongkolchai

Programme as of 2 October 2026 and subject to change.

Tue 10 November 2026

07:30-08:30 Registration & Poster set up

08:30-08:45 Opening: **Aatit Puangmali**, AMS Vice Dean

08:45-09:15 **Keynote 1:** CMU Commitments Toward SDG

Winita Punyodom, CMU Vice President

09:15-09:45 **Keynote 2:** Global Health Priorities in Climate Change

Speaker to be confirmed

09:45-10:15 Group photo & refreshments

10:15-12:15 **Session I: Climate Change and Its Impacts**

Chair: **Ganjana Lertmemongkolchai**, AMS CMU

- Highlight: Thailand's One Health Report on Antimicrobial Consumption and Antimicrobial Resistance – **Speaker to be announced**, Health Policy and Systems Research on Antimicrobial Resistance Network
- Respiratory Infections – **Jeremy Brown**, UCL UK
- Reproductive Health & Thalassemia – **Sakorn Pornprasert**, AMS CMU
- PM_{2.5} and Innate Immune Memory – **Tanapat Palaga**, Chulalongkorn University

12:15-13:15 Lunch & Poster viewing

13:15-15:00 **Session II: Antimicrobial Resistance**

Chair: **Jeremy Brown**, UCL UK

- The Clinically Oriented Antimicrobial Resistance Network (ACORN) – **Speaker to be confirmed**
- Antibiotic Resistance, Molecular Epidemiology of Resistant Bacteria, and Nosocomial Infections – **Chanwit Tribuddharat**, Siriraj Hospital
- Antimicrobial Resistance and Biocontrol – **Jia Liu**, Chongqing Sanxia University of Science and Technology, P.R. China
- Short Communications
 - Infectious Diseases in Hospitals in Northern Thailand – **Worawut Worawutwittaya**, Lamphun Hospital

MEDICINE

JIHS
Japan Institute for Health Security

UCL
University College London

15:00-15:15 Turbo talks I: Chosen from poster abstracts

15:15-15:30 Poster viewing & Refreshments

15:30-17:30 **Session III: Antimicrobial Resistance (cont.)**

Chair: **Brendan Wren**, LSHTM UK

- Natural and Acquired Drug Resistance in NTM – **Manabu Ato**, JIHS Japan
- Current Status and Challenges of NTM Disease – **Takeshi Kinjo**, University of the Ryukyus, Japan
- AMR in Melioidosis – **Narisara Chantratita**, Mahidol University
- Agricultural Microbiology and Antimicrobial Resistance: An Overlooked Opportunity – **Wasu Pathom-aree**, Faculty of Science, CMU

Wed 11 November 2026

08:30-09:00 Registration

09:00-10:30 **Session IV: Air Pollution & Health Effects**

Chair: **Tansy Edwards**, LSHTM UK

- The Future of Tracking and Reducing Personal Air Pollution Exposure – **William Hicks**, Air Aware Labs, UK (Online)
- NCDs and PM_{2.5} – **Chaisiri Angkuwaranon**, Faculty of Medicine, CMU
- Short Communications
 - Characterization of Airborne Microbial Communities in Northern Thailand – **Nattiporn Yabueng**, Environmental Science Research Center, CMU
 - Community-based Study: Effect of PM_{2.5} on Host Inflammation – **Chidchamai Kewcharoenwong**, AMS CMU

10:30-10:45 Coffee break & Poster viewing

10:45-11:45 **Session IV: Air Pollution & Health Effects (cont.)**

Chair: **Tansy Edwards**, LSHTM UK

- Particulate Matter and Cancer Immunosurveillance – **Aussara Panya**, Faculty of Science, CMU
- Seasonal PM_{2.5} Exposure and Health Effects – **Natthapol Kosashunhanan**, Research Institute for Health Sciences, CMU

11:45-12:00 Turbo Talks II: Chosen from poster abstracts

12:00-13:00 Lunch & Poster viewing

LONDON
SCHOOL of
HYGIENE
& TROPICAL
MEDICINE

13:00-15:30 **Session V: Vaccine Development & Innovation**

Chair: **Jeremy Brown**, UCL UK

- A Golden Era for the Development of Veterinary Vaccines – **Brendan Wren**, LSHTM UK
- Structure- and Immunology-guided Vaccine Design – **Yoshimasa Takahashi**, JIHS Japan
- Identification of Novel Vaccine Targets for *A. baumannii* – **Richard Stabler**, LSHTM UK
- Design and Analysis of Trials to Evaluate Therapeutics, Vaccines and Other Global Health Interventions – **Tansy Edwards**, LSHTM UK
- Short Communications
 - From Cells to Spatial Biology to Therapeutics: Computational Innovations for Precision Medicine – **Thatchayut Unjitwattana**, BMEi, CMU
 - Risk of Hospitalization Related to Influenza A(H3N2) Virus Subclade K and Influenza Vaccine Effectiveness 2025 – 2026 in Thailand – **Kriangkrai Prasert**, Nakhon Phanom Hospital

15:30-15:45 Coffee break & Poster viewing

15:45-17:45 **Session VI: Transboundary Zoonoses**

Chair: **Ganjana Lertmemongkolchai**, AMS CMU

- Transboundary Zoonoses in Thailand – **Onphirul Yurachai**, Coordinating Unit for One Health, Ministry of Public Health, Thailand (online)
- Zoonosis in Southeast Asia – **Woottichai Khamduang**, AMS CMU
- Molecular Pathogenic Mechanisms of Animal Viruses & Innovative Vaccine Research – **Speaker to be confirmed**
- Short Communications
 - New Era of Rabies Control: Oral Vaccination for Stray Dogs in Chiang Mai – **Wilaiwan Petsophonsakul**, Lanna Dog Welfare
 - Title to be announced – **Kawiporn Chinachanta**, Multidisciplinary Research Institute, CMU

17:45-18:00 Closing Remark

Allocated time: 30 min/Talk, 15 min/Short communication, 3 min/Turbo talk

Poster presentation: During break time
